

# GOAL FINDER PROGRAM

## AT A GLANCE

The *Goal Finder Program* is designed for identifying latent data points in students to provide **relevant, clear** and **actionable insights** into their academic interests using the power of **latest research** and **technology**.

## SOLUTIONS

### School Subject Selection

Ideal for students in Grade 8 and above, this program aids in identifying subjects from their curriculum that they are most likely to enjoy and have a natural inclination for. Selecting the right subjects sets the student up for success in their future studies.

### University Career Paths

This program, for Grade 10 and above, assists in identifying career paths based on school subjects. It also aids in determining university options and field of study. It can be modified to assess aptitude as well.

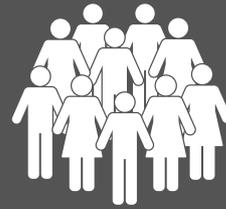

### Engineering Stream Selection

Ideal for students who are sure that they would pursue an engineering degree but not sure which branch options are most suitable as per their interests and passion. Provides latest trend based information.

## WHO IS IT FOR

- **Secondary Schools**
- **Tutoring Centers**
- **Student Career Coaches & Counselors**
- **University Admission Advisors**
- **Self-Assessment of Individual Students**

## WHY IT MATTERS

**1000:1**

Average student to counsellor ratio instead of a 250:1 ratio recommended by ASCA

**60%**

Students said they had experienced "overwhelming anxiety" in the past year

# OUR ASSESSMENT TOOLS

## Personality

Holistic personality insights to identify strengths, challenges, likes, dislikes and inclinations. Provides likely behaviors in professional settings.

## Career Choices

Discovers the top career choices that align with a person's true passions and interests. Provides multiple options in different categories.

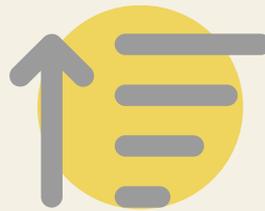

## Learning Styles

Finds preferred learning styles to identify the best mode in which a student learns. Additionally, discover the least effective style for the student.

## Determination

A unique assessment that identifies levels of Passion and Persistence in an individual to understand how driven a student is towards their tasks.

## Career Priorities

Identifies what motivates the student to pursue a career. Helps narrow down choices at a given point in time based on current priorities.

## Aptitude Profile

Aptitude testing to measure Spatial Skills, Mechanical Skills, Verbal Skills, Numerical Skills, Non-Verbal Skills, Logical Deduction Skills and Attention to Detail Skills.
